

# YARRAWONGA PLASTICS

## “Ezy As Tank” © 2010

*Australia's most affordable quiet achiever*

Yarrowonga Plastics is proud to introduce the “EZY AS TANK”, a system that was designed by plumbers for plumbers & builders to save time and money.

The “EZY AS TANK” is a new and exciting product that switches between rain water and mains water to service your toilets and laundry.

In today's environment with land size shrinking and housing almost attached, the “EZY AS TANK” will solve your space requirements and noise pollution issues.

### Features & Benefits:

\*Everything is already in place. Your licensed plumber only needs to connect two pipes along with the storm water in and overflow out, then plug in and flush.

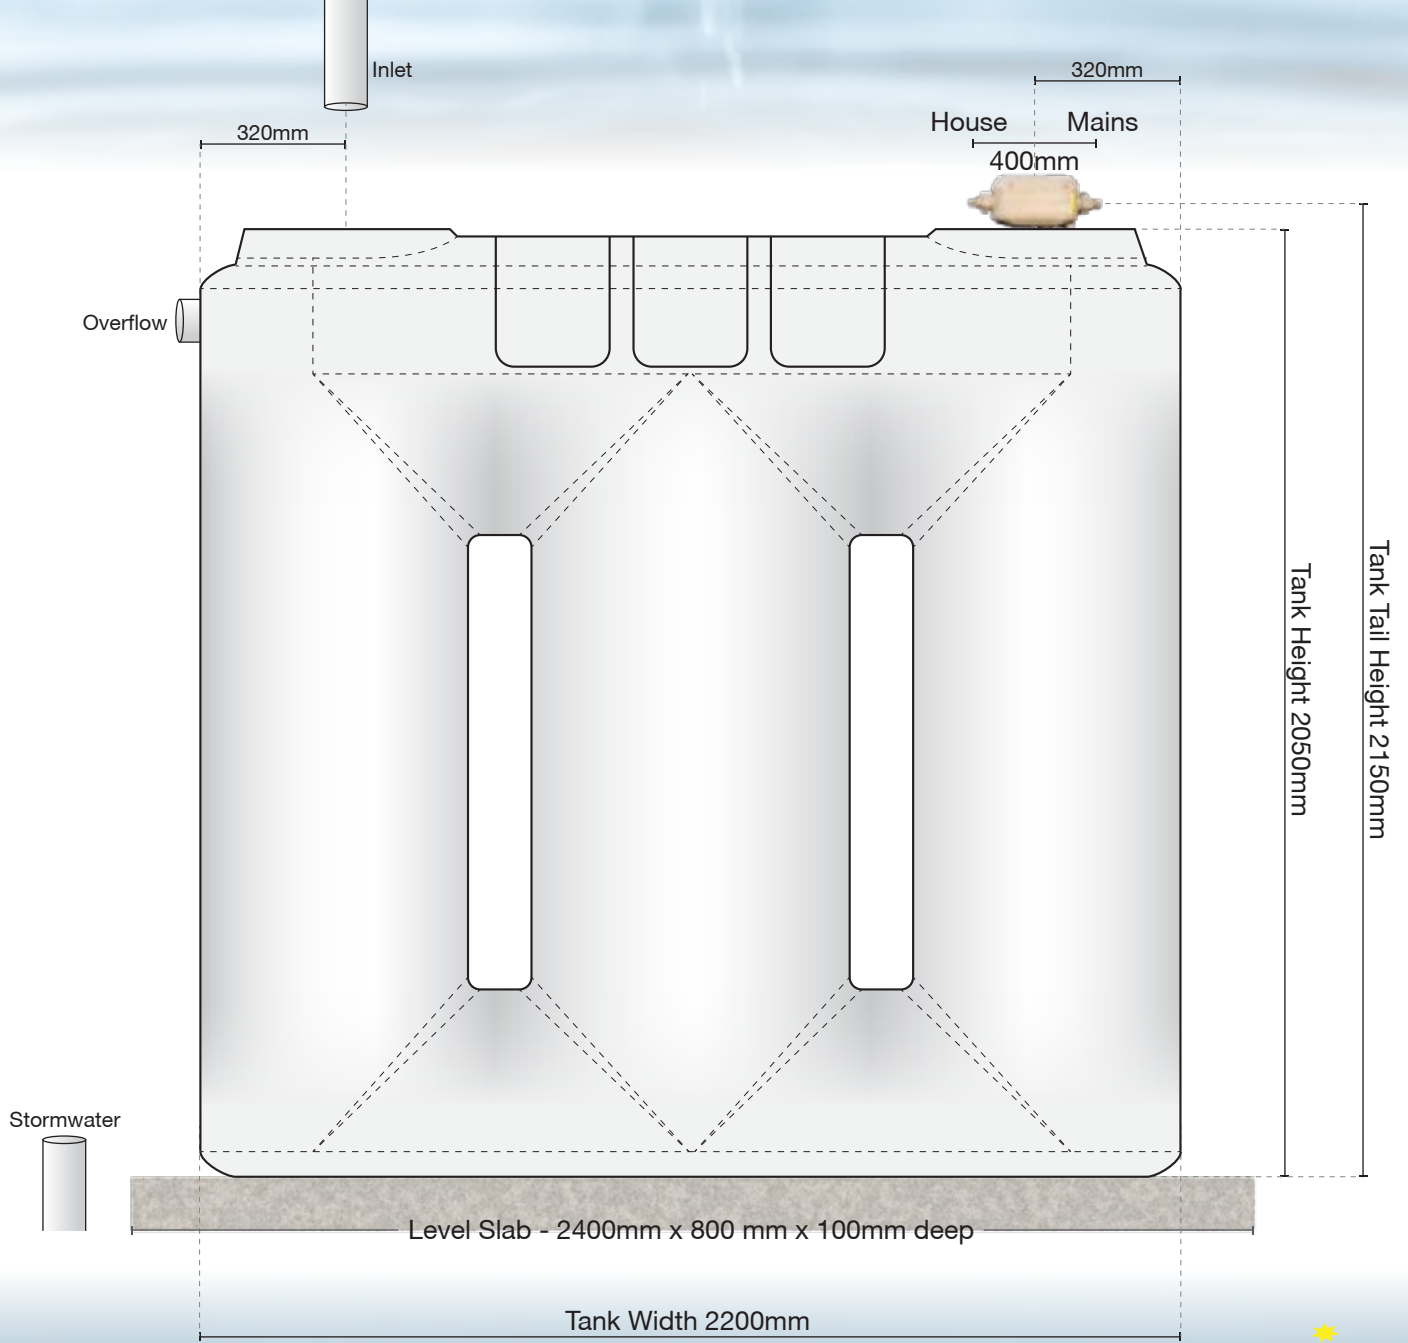

\*A tough 2000ltr slim line rain water tank, manufactured in Australia using UV stabilised, heavy metal free and recyclable food grade polyethylene plastic with the assurance of a 10 year warranty,

\*The “EZY AS TANK” comes in a variety of modern colours.

\* A market leading pump with a massive 95l/min, 470kpa output capable of servicing most multi-storey dwellings which is totally silent and fully automatic, a 2 year warranty on the pump and a 4 year infield warranty on the diverter.

\*All the hard work has been done so it's an EZY choice; it's the “EZY AS TANK”.

*Shhhh... it's the Quiet one*

## COLOUR RANGE\*

\*Colours are a guide only and not for colour accuracy.
